PRICE TWO CENTS

Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from scalds which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

THE FUTURE IS DARK

Difficulties.

Troops—General Toral May Be Con-
sidered for Surrendering So Much
Territory to Shafter—Nineteen Paymas-
ters Start for Cuba to Pay the Troops,
Yellow Fever at Santiago—Other War
News.

Washington, July 20.—War department officials feel that they are fully justified in their decision to retain practically all of Shafter's army at Santiago by the press reports that reached them yesterday indicating the growth of serious friction between the American forces and the Cuban troops, growing out of the latter's exclusion from Santiago by General Shafter's orders. It is felt now that the garrison originally proposed—two immune regiments—would have been quite insufficient to meet an outside Spanish force that might come from Holguin or Manzanillo and also to restrain the rapacity of the Cubans.

It is realized that the present situation is full of difficulty, and the future is dark, owing to the disposition evidenced by the Cubans to ignore or refuse to be bound by the amenities of modern warfare. This first symptom of friction has suggested to the officials innumerable difficulties that will arise in the future.

Of course it would seem to be only polite now to avoid any open rupture with the Cubans, provided they can be kept in leash and not involve the United States in the disgrace that would follow the sacking of helpless communities, but it begins to appear that for some time to come, and even after the conquest of Cuba is complete, the United States must maintain there a military government in order to meet the responsibilities which it has assumed to the civilized world.

The president has announced privately that while no date of departure of the troops to be sent from Chickamauga to Porto Rico had been fixed, he expected they would leave about one week from today. He is awaiting a detailed report from General Brooke recommending what troops and supplies should be sent.

The cold chills of the back of the bravest man when he looks down the barrel of a death-dealing Winchester in the hands of a man who means "shoot."

Every hour and every minute men face death in a more frequent and equally certain form—death in the guise of the deadliest enemy of mankind—consumption. Out of all the tens of thousands who yearly die from consumption 98 per cent. could be saved. Dr. Pierce's Golden Medical Discovery is an almost unfailing cure if taken in the earlier stages of the disease. It will cure consumption and all allied diseases, as bronchitis, throat and nasal affections. It cures by going to first principles. A man's body starves a long time before consumption attacks him. The tissues of his lungs starve for lack of sufficient nourishment. They become inert and half dead and then are attacked by the bacilli of consumption. The "Golden Medical Discovery" restores the long-lost appetite; it strengthens the weak stomach and corrects the impaired digestion; it promotes the flow of digestive juices and facilitates the assimilation of the life-giving elements of the food into the blood. When the blood is pure and rich, old inert tissues are torn down, carried off and excreted, and new, healthy, muscular tissues replace them. It allays inflammation of the mucous membrane, soothes the cough, facilitates expectoration, and deepens the breathing, supplying the system with a much needed stock of oxygen. It drives out all impurities and disease germs. Medicine dealers sell it.

"I was first taken nearly two years ago with chills and aching in my throat," writes Mrs. D. Z. Moore, of Denning, Grant Co., N. Mexico. "I took everything I could think of and spent a great deal of money. Three doctors treated me, but I got no better. I lost my voice. I could scarcely talk. The doctors called the trouble bronchitis, and said the lungs were in a bad state. I began taking Dr. Pierce's Golden Medical Discovery. From the first, I commenced to improve and now have as good health as ever. I owe my life to Dr. Pierce."

SIX CASES IN SANTIAGO—AN EPIDEMIC EXPECTED.
Santiago, July 18, via Kingston, Jamaica, July 20.—General Shafter has

from Chickamauga. The present plan is stated to be to embark them at Newport News or Norfolk and those at Tampa either there or at Key West.

Sampson's Orders.
Admiral Sampson has received final orders from the navy department as to the part the American fleet is to take in the campaign against Porto Rico. They are based on the view that the campaign is essentially an army movement, the duties of the navy being to lend every support and assistance to the land operations. The admiral is instructed to aid the army movements by dispatching convoys when required, and by covering the landing of troops.

As there is no Spanish fleet in San Juan harbor or other Porto Rican ports, the navy has a limited field of operation. The reduction of the harbor fortifications will be the main work, but this and all other operations of the fleet will be supplementary to the main operations conducted by the army. The strategists, military and navy, are agreed in the view that the taking of Porto Rico is primarily a military undertaking and Admiral Sampson's orders are on these lines.

Bids will be opened today in New York for the conveyance home to Spain of the Spanish army captured by Shafter. Meanwhile, in advance of the opening, a bid has come to the department from one of the big foreign steamship lines proposing to carry 18,000 men from San Juan to Cadiz for the lump sum of \$125,000. Any increase or diminution in the number will be charged in the same proportion.

ORDERED FORWARD.
Troops That Will Leave Chickamauga for Porto Rico.

Chickamauga, July 20.—There is no longer any doubt that Camp Thomas is going to furnish a large force of troops for the Porto Rican expedition. The details cannot be had, but it is safe to assert that two divisions and probably more of the First corps will be ordered out, and the movement is expected to begin tomorrow.

General Brooke is expected at the park today when all the details will be arranged.

The following organizations have been placed under orders to go to Newport News, from which point they will embark for Porto Rico: The Second brigade of the First division, First corps, consisting of the Fourth Pennsylvania, Fourth Ohio and Third Illinois, under command of Brigadier General Haines; light batteries B of Pennsylvania, A of Missouri, A of Illinois and the Twenty-seventh Indiana battery, the signal corps under Major Glassford, the reserve hospital corps under Major L. S. Smith and the reserve ambulance company under Major Frank Boyd.

That these will go tomorrow there appears to be no doubt and it is more than likely that a larger force than this will be started at that time.

For some reason, changes might be made and the fact that the regiments of the entire First corps have been fitted out alike, suggests the probability of some changes in making up the force. Colonel Rockwell, chief ordnance officer, and Colonel Lee, chief quartermaster, have finished what seemed the unending task of equipping the First corps. There is now perhaps not a regiment in the corps that does not feel that it will be among those picked out to go with General Brooke and when the regiments to go are designated, there is therefore going to be some sadly disappointed volunteers.

Colonel Lee was in consultation with railroad men yesterday regarding the necessary transportation for the forthcoming expedition. He will have every arrangement made to move the entire force within four or five days.

SECOND CALL.

Only Seven States Have Recruited Their Full Quota.

Washington, July 20.—Fairly good progress has been made for the recruitment of the volunteer regiment under the second call for 75,000 volunteers. The plan adopted by the war department was to recruit all the volunteer organizations in the army up to their maximum enlisted strength before entering upon the recruitment of additional troops. The total number of men required to fill out existing regiments was 37,500 and, according to the latest returns, the total enlistments under this plan are 27,519 men.

Indiana, Minnesota, Missouri, New Jersey, Rhode Island, West Virginia and Wisconsin have exceeded their quota, but all the others are behind in the supply of troops. The worst delinquent is North Carolina, which has furnished only 55 soldiers to meet its quota of 783. Other delinquents are Colorado, Louisiana, Nebraska, Tennessee and Virginia, each of which has supplied less than one-third of the number of men required.

Alabama, Massachusetts, Arkansas, Georgia, Mississippi, Oregon and Texas have done very little better and are all very much behind in meeting the requirements. Complaint has been made also that in several of the states an effort has been made to foist poor material on the government. The total enlisted strength of the regular army to date is about 44,000 being about 18,000 short of its legal complement. The volunteer army consists of 183,000 men and is only 17,000 short of its maximum authorized strength under the two calls issued by the president. The total strength of the army regular and volunteer is 227,000 as now organized.

YELLOW FEVER.

Santiago, July 18, via Kingston, Jamaica, July 20.—General Shafter has

had a thorough examination made of the sanitary condition of Santiago. The work was done by Dr. Goodfellow of the general's staff and by a civilian physician, Dr. Orlando Dwiker. They find that although there are at present but six cases of yellow fever in the city, in addition to two suspects, the town is ripe for an epidemic. Santiago and Rio Janeiro are considered the greatest fever breeding centers in the world. This town lacks every sanitary feature at its best, and now, after two months' siege, leaving it dirty and repellant, it is a veritable pest hole. The awful stenches that arise from the streets stagger and choke one. No cordial in Santiago has the power to wash out this odor from ones throat.

There are four hospitals in the city. In these four institutions are 1,747 patients, which is a comparatively small number, considering the lack of food and long siege, but it must be remembered that the reconcentrados were never admitted to the hospitals and when the notification of the proposed bombardment by our batteries was received, every patient who could stagger out was driven into the streets. Twenty lepers were among the number and they have been roaming in the streets ever since. The largest number of patients are in the military hospital, where are 37 wounded Spanish officers and 431 wounded soldiers and sailors. In addition there are hundreds of cases of malaria and dysentery and six cases of yellow fever.

To Pay the Troops at Santiago.
Washington, July 20.—Nineteen paymasters, under the command of Major Shiffers, sailed yesterday for Santiago to pay the troops under General Shafter's command. Four paymasters sailed on the Resolute from New York and will have charge of the funds, which will be transported on this cruiser. The others sailed from Tampa. After paying off at Santiago the paymasters will proceed to Porto Rico to pay the troops there.

MAY COURTMARTIAL TORAL.

Cabinet Surprised That He Should Surrender His Whole Military Division.

Madrid, July 20.—The papers announce that the cabinet council was occupied yesterday with the capitulation of Santiago de Cuba. Ministers expressed surprise that General Toral had included the whole military division of the province in the surrender, and Captain General Blanco has been asked to send details. When these have been received, the entire posse headed for the door. True to his word, the Chinaman fired the giant powder, and in an instant a terrific explosion occurred, killing five officers and blowing the Chinaman to atoms.

His body was fearfully mangled. Koch was also badly disfigured but lived long enough to be taken to the hospital in the patrol wagon. Mrs. Hill was visiting a Mrs. Pride, who lived across the way. She was killed in the falling debris of the building. All the buildings took fire. Engines were soon fighting the flames, but to no avail. The works were completely wrecked. Four houses are also blown down and about 40 are partially wrecked. Deputy Sheriff Fred Sherratt and Deputy Edward White escaped, but are painfully wounded.

Fourteen cars were blown to splinters and several were burned. Windows were broken in Oakland, Alameda and as far as Berkeley.

VEERING AROUND
German Press Changing Its Attitude Toward the United States.

Berlin, July 20.—The Vossische Zeitung, in a much discussed article, prefaced by the statement that some ratification is needed of the errors regarding German feeling toward America, asserts that the unfriendly sentiments are fostered by the interested English press.

It proceeds to declare that Germany has always stood by America and reminds the Americans of Germany's friendly attitude during the civil war.

On the other hand, it says, Germany has suffered many petty annoyances from Spain, still she cannot help her admiration of Spanish valor. The article reflects the general veering of the press in favor of the United States.

MAJOR BROOKE.

The General Arrives From Washington, but Declines to Talk.

Chattanooga, July 20.—Major General John R. Brooke arrived this morning on a delayed southern train from Washington. He declined to discuss the plans for the expedition to Porto Rico.

Captain Hodgson.
Victoria, B. C., July 20.—The steamer Empress of India has arrived from Hong-Kong. Among her passengers is Captain D. Hodgson, who commanded the revenue cutter McCulloch during the battle of Manila. Captain Hodgson is on his way to San Francisco. According to the Hong-Kong papers Admiral Deidrich of the German fleet at Manila

WARNED OFFICERS

That If They Attempted to Break Down
His Barricade He Would Blow Up the
Magazine Which Contained Five Tons
of Powder—Five Officers, One Woman
and the Chinaman Killed—Houses De-
molished and Cars Destroyed.

Oakland, Cal., July 20.—The works of the Western Fuse and Explosive company were blown up by a murderous Chinaman yesterday. Five deputy sheriffs and constables who were trying to arrest the murderer were killed. The dead are:

DEPUTY SHERIFF CHARLES WHITE, son of Sheriff White.
GEORGE WOODS.
D. C. CAMERON.
CONSTABLE GUS KOCH.
CONSTABLE J. J. LERRE.
MRS. HILL.
GOON NG CHUNG.

The celestial who was employed in the works and who caused the awful explosion had killed a fellow countryman in a quarrel over a Chinese lottery ticket. He then defied the officers who went to arrest him. The murderer fled into the magazine, which contained five tons of giant powder, barricaded himself and threatened to blow up the magazine if anyone came to arrest him. Deputy Sheriff White, in charge of a posse consisting of Constables Koch and Lerri and Deputy Sheriff George Woods, D. C. Cameron and Deputy Constable Harry Frammer, were on the scene of the shooting shortly after the murder and kept guard over the Chinaman within his stronghold. All the officers were armed with rifles.

After repeated demands to surrender had been made, to all of which the same reply came: "If you come in here I will blow up the magazine," the officers retired within the private office of the company, about 20 yards away.

Deputy Sheriff White, after a consultation with the others, determined to break down the barricade, not believing the Chinaman would keep his dastardly promise.

Accordingly, the entire posse headed for the door. True to his word, the Chinaman fired the giant powder, and in an instant a terrific explosion occurred, killing five officers and blowing the Chinaman to atoms.

His body was fearfully mangled. Koch was also badly disfigured but lived long enough to be taken to the hospital in the patrol wagon. Mrs. Hill was visiting a Mrs. Pride, who lived across the way. She was killed in the falling debris of the building. All the buildings took fire. Engines were soon fighting the flames, but to no avail. The works were completely wrecked. Four houses are also blown down and about 40 are partially wrecked. Deputy Sheriff Fred Sherratt and Deputy Edward White escaped, but are painfully wounded.

Fourteen cars were blown to splinters and several were burned. Windows were broken in Oakland, Alameda and as far as Berkeley.

LOADING TRANSPORTS.
Active Preparation for Movement of Troops at Charleston.

Charleston, S. C., July 2.—That active preparations are being made for a move to the front is evident to all who spend half an hour on the water site. The soldiers are not having a great deal to do with the loading of the transports, but they do guard duty and oversee the work, which is accomplished by gangs of negro laborers. The monster ship No. 21 is receiving into her hold thousands of tons of hay and other stores. Besides the feed the ship is ordered to carry the Sixteenth Pennsylvania regiment, its wagons, mules and stores.

Transport No. 1, the Panama, loaded some additional supplies, and she sailed for the south last night. The No. 1 carried about 150 negro hands for Cuba.

Favor the Chinese Doctor.
Crown Point, Ind., July 20.—The citizens of this place do not take kindly to the action of the state medical board in refusing Dr. Don Sang, the Chinese physician, a license to practice. A public meeting has been held and the governor will be asked to interpose in behalf of the doctor.

is credited with the statement that he will prevent Admiral Dewey from bombarding Manila or any port.

Will Move to Dun Loring.
Washington, July 20.—Orders have been issued from corps headquarters at Camp Alger directing General Butler to move the First division to Dunn Loring as soon as possible. All the details of the exodus are not complete, there being some confusion in regard to the disposition of the cavalry and the Connecticut and South Carolina regiments. Every thing hinges upon the water supply, but it is thought that by next Monday there will be a sufficient number of wells to supply all needs.

General Miles.
Washington, July 20.—Owing to General Miles' failure to receive dispatches forwarded by the president he did not sail for Porto Rico as was announced by the war department, but it is regarded as certain that the general and the first contingent of troops for Porto Rico are now on the high seas.

Prize Ships.
New York, July 20.—The prize ships Catalina, Miguel Jover, Baena Ventura and Guido, conveyed by the United States gunboat Newport, arrived here last night and anchored off Tompkinsville, S. I.

INTEREST TO CITIES.

Suit Effecting Street Repair Work at Louisville.

Louisville, July 20.—This city has been made defendant in a suit, which, if the plaintiffs win, will mean a loss of hundreds of thousands of dollars to the city. Five plaintiffs ask leave to prosecute the suit in behalf of all who have paid out warrants against lots for street improvement, and that they be required to set up claims for 10 per cent reimbursement.

The contention is that the city should keep the streets in repair, meeting the expenses out of a city fund, and that in requiring a 10 per cent deposit from contractors as a guarantee for keeping streets in repair for five years, the abutting property owners have been forced to pay to that extent more than should devolve upon them in consequence of contractor making their bids that much higher.

Mountain Fan.
Lexington, Ky., July 20.—Lieutenant Nowlin of the mountain soldiers, took aboard a full supply of beer and came to the city to show what a lively man he was. He frightened people out of the Chesapeake and Ohio depot, and then to make it strong flashed his gun. A patrolman started after him and the mountain fied. A pistol shot from the copper halted him. This attempt to introduce the mountain methods of fun cost him \$25.

Spanish Prisoners.

Portsmouth, N. H., July 20.—The Spaniards are becoming accustomed to living on the "American plan," and are making rapid advances in learning our national airs. The officers dress in citizens clothes and apparently are enjoying themselves in the freedom they have of Portsmouth and vicinity. Four deaths as a result of malarial fever marks yesterday's mortality in the Spanish camp.

Drank Embalming Fluid.
Mount Sterling, Ky., July 20.—John Carbit went into an undertaking establishment here and, mistaking a keg of embalming fluid for mineral water, drank copiously of it. Physicians were called and managed to save his life, but he is not yet out of danger.

SURRENDER OF ARMS.

General Shafter Reports to the War Department.

Washington, July 20.—The war department has posted the following bulletin of a dispatch from General Shafter: My ordnance officers report over 10,000 rifles sent in and about 10,000,000 rounds of ammunition. Sent officers and troops to receive surrender of interior garrisons. About 2,000 at these places. Will send officers to receive surrender of coast garrisons, Guanabacoa, Baracoa and Sagua de Tamo.

No Yellow Fever at Tampa.

Tampa, Fla., July 20.—The troops left behind here after the departure of the regiments ordered to Porto Rico will be moved to Fernandina. The camp here was pitched on low ground and a number of the men have contracted malarial fever. It was decided best to move the camp away from here. The removal caused reports of yellow fever in Tampa, but it can be stated positively, and with authority of the president of the state board, that there is no suspicion of yellow fever here.

LOADING TRANSPORTS.

Active Preparation for Movement of Troops at Charleston.

Charleston, S. C., July 2.—That active preparations are being made for a move to the front is evident to all who spend half an hour on the water site. The soldiers are not having a great deal to do with the loading of the transports, but they do guard duty and oversee the work, which is accomplished by gangs of negro laborers. Republican State Convention.

The Indiana Republican State Convention will be held at Tomlinson Hall in Indianapolis on Wednesday and Thursday, August 3d and 4th, 1898. The convention will be composed of 1616 delegates, and promises to be one of the most interesting and enthusiastic conventions ever held in the State.

RAILROAD RATES.

Arrangements have been made with all railroads in Indiana for a special rates of one fare for the round trip to Indianapolis from all parts of the state for sale Aug. 2 and 3d good returning including Aug 5th.

JACKSON township is asked to vote next Tuesday on the proposition to build some more gravel roads in this county. The voters should look into the advisability of the several roads and then go to the polls and vote. The people generally are demanding better roads, especially where material is so easily secured as it is here.

The Indianapolis News is much concerned because gambling houses in Indianapolis are undisturbed by the authorities. Why it has only been a few months since that paper was advocating a rural constabulary for the enforcement of law in country districts and took us to task because we asserted that the laws were much better enforced in the country than in Indianapolis, and if any new laws were enacted for the better enforcement of law attention should be given especially to cities of more than 100,000 inhabitants.

VIEWED in the light of events, President McKinley's insistence that congress should not recognize the so-called Cuban government has found ample justification. If the junta had been so recognized, Santiago today would be in the hands of the insurgents to sack and pillage to their hearts' content. Our troops would be subject to their orders and if they saw fit, could be ordered home, since the city has been taken, to await the time for the attack on Havana. All through the policy leading up to the war and in the conduct of the war itself, President McKinley has shown that statesmanlike grasp of the problems that have confronted the Nation, such as is expected in the chief ruler of a great people.

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three years she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept at night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hannick & Co., of Shelby, N. C. Trial bottles free at W. F. Peter's Drug Store. Regular size 50c and a dollar. Every bottle guaranteed.

KILLED AT THE TUNNEL.

John Schornick's Head Crushed While Riding On Top of a Passenger Car This Morning.

The B. & O. S. W. last passenger train No. 6 east and due at 4:32 arrived here this morning about 5 o'clock with two passengers on board that were not accounted for in the conductor's report. John Schornick and Chas. Peters, of East St. Louis, were stealing a ride on the top of the baggage car. When the engine whistled for the little tunnel near Tunnelton about thirty miles west of Seymour, they mistook it for a station whistle and young Schornick raised up just in time for the rocks at the entrance to the tunnel to strike him a crushing blow in the back of the head. Peters who was still lying down farther back on the car heard the blow, and saw his companion thrown toward himself and caught him just in time to prevent his body falling from the car. He held to the dead body until the train reached Brownstown, where the trainmen were notified of the accident and both were brought on to Seymour. The young man who was killed was about 21 years old, the son of a railroad man, of East St. Louis, and with young Peters, who was about the same age, had started out for a trip. The remains were taken in charge by Undertaker Lumpkin and will be sent back to his home. Coroner Green held an inquest over the body.

MILES ON HIS WAY.

PLENTY OF TROOPS TO BE SENT WITH HIM.

The Philippine Situation—Supplies at Santiago—National Banks to be Established.

Gen. Miles was delayed in starting from Siboney for Porto Rico, but is believed to be well on the way by this time, accompanied by nearly 4,000 troops.

No fear is felt at Washington as to Germany's attitude in the Philippines, but there is concern over the rebels. Though Aguinaldo has promised Admiral Dewey not to take Manila until Maj. Gen. Merritt arrives, there is fear that his men may cause trouble and we may be compelled to fight them.

Fourteen hundred tons of provisions were landed in Santiago Monday by the Red Cross steamer State of Texas. A pound and a half of rations were allowed each citizen. Ration tickets were issued by Gen. McKibbin. The water supply has been restored, and by Gen. Shafter's orders all saloons have been closed. The Red Cross crops is feeding 40,000 people and the food supplies have to be heavily guarded to prevent raids.

Applications have been filed for the establishment of national banks at Honolulu and at San Juan, Porto Rico, while there have been inquiries of a similar nature concerning Manila. A commercial boom at Santiago is in sight and heavy American shipments will be made under the reduced tariff.

Surprise Party.

A number of young people of this place surprised Miss Emma Crabb last evening by giving her a party. Among the invited guests were: Misses Edith and Effie Brown, Bertha McCann, Nettie Crabb, Bertie Brown, Ida MacDuff, Nina Patrick, Rosa Cline and Ida Oesting. Messrs. N. M. Carlson, J. M. Lewis, Charles Abel, Ed. Bryan, Mort Crabb, Chas. Seaman, Harry Thompson, Charles Huntzman and David Dunn. A refreshing lunch was served and the occasion was altogether a very pleasant one.

A GUEST.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. KILLED AT THE TUNNEL.

John Schornick's Head Crushed While Riding On Top of a Passenger Car This Morning.

The B. & O. S. W. fast passenger train No. 6 east and due at 4:32 arrived here this morning about 5 o'clock with two passengers on board that were not accounted for in the conductor's report. John Schornick and Chas. Peters, of East St. Louis, were stealing a ride on the top of the baggage car. When the engine whistled for the little tunnel near Tunnelton about thirty miles west of Seymour, they mistook it for a station whistle and young Schornick raised up just in time for the rocks at the entrance to the tunnel to strike him a crushing blow in the back of the head. Peters who was still lying down farther back on the car heard the blow, and saw his companion thrown toward himself and caught him just in time to prevent his body falling from the car. He held to the dead body until the train reached Brownstown, where the trainmen were notified of the accident and both were brought on to Seymour. The young man who was killed was about 21 years old, the son of a railroad man, of East St. Louis, and with young Peters, who who was about the same age, had started out for a trip. The remains were taken in charge by Undertaker Lumpkin and will be sent back to his home. Coroner Green held an inquest over the body.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELEE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, to the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., writes: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

G. A. R. Chickamauga.

During the G. A. R. encampment in Cincinnati, September 5th to 10th, round trip tickets from Cincinnati via the Queen & Crescent route on September 8, 9, and 10 to Chickamauga at rate of \$5.00, good to return four days from date of sale. On same dates a round trip ticket will be sold at rate of \$7.25, limited to ten days from date of sale.

These very low rates are made to enable old soldiers, their families and visitors to the city, on the occasion named, to make a side trip to Chickamauga (Chattanooga).

The tickets are good for passage on the finest limited trains of the Queen & Crescent Route.

HONEYTOWN.

We need rain for the growing crops. Wheat threshing is almost over. There is only an average crop and possibly it will not be up to the average.

Born, to Charles Encchs and wife, a son. Long Bill says this entitles him to be treated with great respect as he is now a grandfather.

We want it distinctly impressed upon the minds of men everywhere that the fifteenth annual picnic at Honeytown will take place on Saturday July 30. Everybody is cordially invited and they ought to drop everything else and come.

Methodist quarterly meeting was the order of the day at our place last Sunday. The baskets, however, failed to materialize, but Honeytown hospitality was equal to the occasion. All were delightfully entertained by Revs. Campbell and the Brownstown pastor.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. W. Milhous.

TRICKY BABY PETE.

HE COMMITTED THE THEFTS FOR WHICH A MAN WAS DISCHARGED.

A Midnight Adventure in the Winter Quarters of an Elephant Herd—How Sly Pete Got Away From His Stake and Stole a Bag of Oats.

Pete is the baby elephant of one of the big circus herds. During his confinement in winter quarters he played a trick on his keeper, which the man relates as follows:

"Pete is a tiny little fellow and does not weigh more than 600 or 800 pounds, but I actually believe he would eat as many pounds of oats if he had access to them. The elephant house was dark one night, and I supposed every one of the animals was sound asleep, when my attention was attracted by a subdued, rasping noise, apparently coming from the farther end of the big herd. Instead of walking down in front of them all, I went around and came in at the other end. Hiding behind some bales of straw, I peered cautiously over to where the little rascal was chained, and there he was, carefully lifting his stake out of the ground. I saw in an instant that he had had the stake out before that time, for all he had to do was to lift it up and it came out. He slipped his foot chain down over the tapering end of the stake and was free.

"Across the room, distant perhaps 75 feet or more from his place, were piled some sacks of grain, containing about 100 pounds each. Picking up the foot chain very carefully with his trunk, so that it would not rattle or jangle upon the floor, he began the most delicate, sinuous, gliding motion across the space that separated him from the grain I ever saw, and I never imagined an elephant could do so quietly. I crouched behind the bales of straw, afraid to move for fear he would hear me and stop.

"On he went, cautiously, slowly, but steadily, until he was within reaching distance of the sacked grain. Then he laid the chain down and picked up a bag of oats with his trunk. His journey back to the herd, 20 feet away, was performed even more cautiously than had been his advance, for he had to drag the chain without making a noise. All the time he held the sack of grain tightly in his trunk, and his mouth must have watered when he thought of the feast he was going to have. He reached the herd at last and went up to great big Babylon, who stood like a bronze statue, her massive sides looming up like the sides of a house in the gloom. Pete stopped, and Babylon, whom I had imagined fast asleep, took the oats. They got into the bag in a jiffy and then began a feast. Pete filled his mouth and munched away like a man eating dry crackers on a wager. He knew that his big companion, Babylon, would get the most of the oats if he lost any time. Babylon put away almost half the oats at the first jump out of the bag, and poor little Pete, with his mouth full, looked at her with his watery little eyes, as much as to say, 'Oh, what a hog!' and gulped the oats down his little throat at the risk of choking to death.

"I thought it was about time to make a noise, just to disconcert them. I had seen enough to assure me that a hostler who had been discharged hadn't been instrumental in the disappearance of divers and sundry bags of oats, and as I walked around toward the other end of the elephant house, I wondered what I should do to punish the thieves. The big one had had a painful operation performed a few months before, and I thought that any sight of the instruments that had been used at that time would give her a good fright. When I had reached my own sleeping room, I purposely made a noise and heard the shuffling sounds of sly little Pete as he shuffled back to his place. He picked his stake up, put it down in the ground, and would have put it through the ring in the chain if he had had time. When I came along, he was leaning against the wall asleep. I gave him a gentle prod, and he awakened suddenly, with that sleepy stare that a person has when awakened from slumber. But he soon knew that I was on him, for, when I ordered him to open his mouth, he didn't want to do it. He finally obeyed, and there were the oats. His mouth was jammed full of them. I didn't do anything to him, but walked over to big Babylon. She was his partner in crime, but she was playing possum too. I had a good deal of trouble to wake her up and more to make her open her mouth. Much to her chagrin, I imagine, it was full of oats, and she had the empty sack closely rolled up and packed with them. She was speechless and ashamed, I assure you, if ever an elephant put on that expression. To punish her I ordered her to sit down and open her mouth and made a motion as if to pass a great pair of forceps into it which had been used during the operation I referred to. She shut her mouth and cried like a baby, and was so thoroughly frightened that she never trusted again. But that sly little Pete—why, he is more trouble than the entire herd, and he just gets loose whenever he wants to."—St. Louis Globe-Democrat.

Women as Soldiers.

"I do not see," said a clever woman, "why the newspapers should feel called upon to poke fun at the new law in Colorado which permits women to serve in the state militia. In time of battle woman is just as necessary as man. Just wearing a uniform and shooting a gun are not all that constitute a soldier. What about women's place in the hospitals during time of war? Does it not require a brave heart and a strong nerve to wait on the wounded or dying? Is not a woman a soldier who can assist the surgeon as he amputates a limb or binds a fractured bone? Are not the Red Cross nurses soldiers? It seems to me that a woman will make just as good a soldier as a man and always find her place in time of war."

JACKSON township is asked to vote next Tuesday on the proposition to build some more gravel roads in this county. The voters should look into the advisability of the several roads and then go to the polls and vote. The people generally are demanding better roads, especially where material is so easily secured as it is here.

The Indianapolis News is much concerned because gambling houses in Indianapolis are undisturbed by the authorities. Why it has only been a few months since that paper was advocating a rural constabulary for the enforcement of law in country districts and took us to task because we asserted that the laws were much better enforced in the country than in Indianapolis, and if any new laws were enacted for the better enforcement of law attention should be given especially to cities of more than 100,000 inhabitants.

VIEWED in the light of events, President McKinley's insistence that congress should not recognize the so-called Cuban government has found ample justification. If the junta had been so recognized, Santiago today would be in the hands of the insurgents to sack and pillage to their hearts' content. Our troops would be subject to their orders and if they saw fit, could be ordered home, since the city has been taken, to await the time for the attack on Havana. All through the policy leading up to the war and in the conduct of the war itself, President McKinley has shown that statesmanlike grasp of the problems that have confronted the Nation, such as is expected in the chief ruler of a great people.

Alleged Swindler Arrested.

Orleans, Ind., July 20.—Charles Miller has been arrested here, it being alleged that he represented himself in Washington county as D. D. Fisher, and purchased several herds of cattle, giving checks on the bank of Orleans, where he claimed to have \$4,000 on deposit. The checks were dishonored. Miller has been taken to Washington county for trial.

KILLED AT THE TUNNEL.

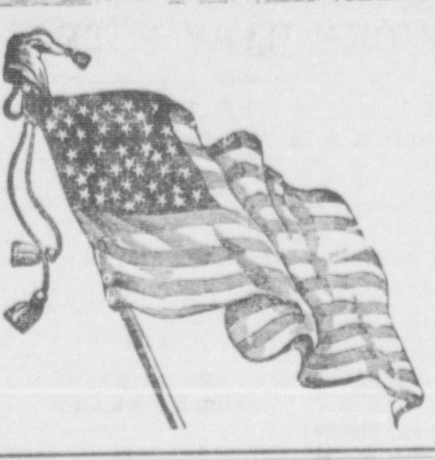

John Schornick's Head Crushed While Rid-
ing On Top of a Passenger Car This
Morning.

The B. & O. S. W. last passenger train
No. 6 east and due at 4:32 arrived here
this morning about 5 o'clock with two
passengers on board that were not ac-
counted for in the conductor's report.
John Schornick and Chas. Peters, of
East St. Louis, were stealing a ride on the
top of the baggage car. When the en-
gine whistled for the little tunnel near
Tunnelton about thirty miles west of
Seymour, they mistook it for a station
whistle and young Schornick raised up
just in time for the rocks at the entrance
to the tunnel to strike him a crushing
blow in the back of the head. Peters
who was still lying down farther back
on the car heard the blow, and saw his
companion thrown toward himself and
caught him just in time to prevent his
body falling from the car. He held to
the dead body until the train reached
Brownstown, where the trainmen were
notified of the accident and both were
brought on to Seymour. The young
man who was killed was about 21 years
old, the son of a railroad man, of East
St. Louis, and with young Peters, who
who was about the same age, had
started out for a trip. The remains
were taken in charge by Undertaker
Lumpkin and will be sent back to his
home. Coroner Green held an inquest
over the body.

The Philippine Situation—Supplies
at Santiago—National Banks
to be Established.

Gen. Miles was delayed in starting
from Siboney for Porto Rico, but is
believed to be well on the way by this
time, accompanied by nearly 4,000
troops.

No fear is felt at Washington as to
Germany's attitude in the Philippines,
but there is concern over the rebels.
Though Aguinaldo has promised Ad-
miral Dewey not to take Manila until
Maj. Gen. Merritt arrives, there is fear
that his men may cause trouble and we
may be compelled to fight them.

Fourteen hundred tons of provisions
were landed in Santiago Monday by the
Red Cross steamer State of Texas. A
pound and a half of rations were allowed
each citizen. Ration tickets were is-
sued by Gen. McKibbin. The water
supply has been restored, and by Gen.
Shafter's orders all saloons have been
closed. The Red Cross crops is feeding
40,000 people and the food supplies
have to be heavily guarded to prevent
raids.

Applications have been filed for the
establishment of national banks at
Honolulu and at San Juan, Porto Rico
while there have been inquiries of a
similar nature concerning Manila. A
commercial boom at Santiago is in
sight and heavy American shipments
will be made under the reduced tariff.

Surprise Party.
A number of young people of this
place surprised Miss Emma Crabbs last
evening by giving her a party. Among

A refreshing lunch was served and the
occasion was altogether a very pleasant
one. A Guest.

PLANING MILL ON FIRE.

Just at noon today the fire alarm

the blaze at Massman's planing mill.
Before the department arrived the
fire was blazing through the roof of the
engine room, but it was soon extin-
guished and without great damage.
For a time there seemed to be great
danger of an extensive conflagration,
but fortunately the fire was soon under
control.
